

# MOOD STORIES

Worktops and back panels

A rich offer of  
worktops and  
back panels for  
a wide range  
of applications

Stop.  
Seize the mood. Feel the texture,  
fall in love with subtle color tones,  
enter our world. The world that  
definitely offers something  
to meet your expectations.

”

We are excited to present a truly  
exceptional design collection.  
A collection allowing you to embark  
on a journey through decors and  
designs encapsulated in 10  
different moods.

Main Ambassador of the Collection  
Maja Ganszyniec

# MOOD STORIES

Atmosphere of design

# Worktops

## Quality and interesting design

Regardless of where they are used, worktops are an important element in the interior, clearly marking its presence or, on the contrary, discreetly blending in the design. They constitute that part of the furniture which is exposed to numerous damages: scratches, dents and the effects of high temperatures. Pfleiderer's latest offer meets customers' needs to have furniture made of durable and aesthetic materials.

## Pfleiderer worktops

- resistant to high temperatures, humidity and household agents
- easy to clean
- ready for use immediately after installation
- easy to process and to install
- perfectly imitating the natural materials
- resistant to scratches and impacts
- fitting into the latest design trends

# Premium Collection

## Feel the texture

The beauty and originality of Premium Collection decors have been highlighted by unique textures.

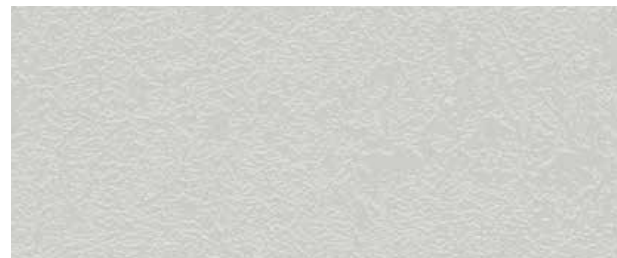

### Moon (MN):

Unique, highly expressive to the touch, which reflects the majestic beauty of the moon.

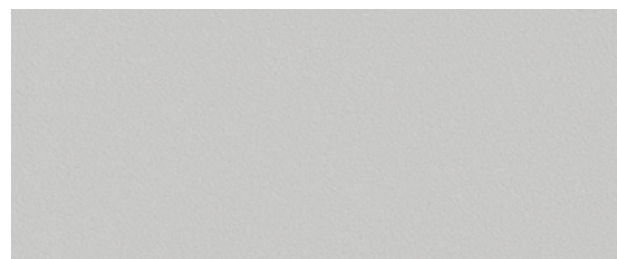

### Quarry (QR):

Rich stone texture, which brings out the subtle beauty from single-colour decors to give them a unique character.

### Xtreeme Matt (XM):

Non-reflective, warm and silky feel of XTreeme Matt texture, resistant to fingerprints and grease stains. It has received numerous awards in the field of nutritional art.

## Antibacterial coating Duropal MicroPLUS®

The Premium collection includes worktops covered with with a special MicroPLUS® antibacterial coating. It contains active substances that are safe for people and the natural environment and provide constant and reliable protection against microorganisms. MicroPLUS® worktops are especially good choice for the commercial buildings, requiring high health and hygiene standards.

## P2 Green core Increased resistance to humidity

The core of the worktops from the Premium Collection is the P2 Green board with the addition of a bonding adhesive, made of urea resin, compatible with EN 312. P2 Green is suitable for making furniture in the conditions of an increased humidity. It can be used in domestic kitchens and bathrooms, but also in the public facilities such as hotels, restaurants or SPAs.

# Premium Collection

Premium Collection includes 8 decors offered on P2 Green board. It includes 2 decors with microPLUS® antibacterial coating, which provides permanent and reliable protection against bacteria. The decor range is complemented by new, highly expressive Moon and Quarry textures.

Formaldehyde emission class	E 0.5
-----------------------------	-------

FSC® and PEFC™ certified versions are also available on request.

### Worktop profiles:

# Back panels

## Freedom of choice of materials

Pfleiderer back panels perfectly replace the popular materials used in the arrangement of the wall above the kitchen worktop, and thanks to their unique properties they fulfil expectations of even the most demanding users.

### 1. Kitchen

The wall adjacent to the kitchen worktop is an important element of the arrangement of every kitchen. It is located at the eye level and it should not only complement the arrangement of the kitchen, but also be characterized by an exceptional resistance to moisture, heat and dirt.

### 2. Bathroom

Moisture, soap, toothpaste, cosmetics, cleaning and disinfecting agents. All that has a significant impact on aesthetics and hygiene in bathrooms, and thus on the comfort of their use. Particularly resistant and hygienic should be the area near the sinks. This is where the bacteria from the washed up hands or teeth go, and that is why we clean these places using strong anti-bacterial agents. Pfleiderer back panels perfectly meet the requirements of hygiene both in dwellings and in the public facilities. Their monolithic construction and easy to clean surface makes hygiene maintenance easy and effective.

### 3. Specialised construction

Back panels are also an ideal solution for commercial and public facilities. Products available on request with a special MicroPLUS® antibacterial coating meet the most stringent hygiene standards in places such as medical, dental or veterinary offices, but also cosmetic salons, spas, catering and service outlets, schools, kindergartens and any other places where they are a part of the usable area and must be protected in a special way.

# R68052 Terazzo Beige

Terrazzo is back in favour, although its origins go back to antiquity. This decor is its more contemporary, slightly subdued interpretation. Fragments of natural stones on a light background. A spectrum of colours – from pastels, through beiges and browns to black. Terazzo Beige is a perfect match for both bright unicolours as well as with different wood tones.

# R55082 Slavic Pine

The bleached pine pattern captivates with its intriguing play of wood shades. The whole thing is coherent, harmonious, perfect for both small and large spaces. A rich image of natural material subtly diversifies the interior and at the same time makes it more cosy. Slavic pine adds a cosy feel to the arrangement, blends wonderfully with pastels giving the interior a fresh and warm feel.

# R20302 Golden Oak Butcherblock

This oak is synonymous with rustic style and classic elegance. An eye-catching feature is the clever, yet simple arrangement of the staves modelled on oak wood. It juxtaposes seemingly similar and yet different elements of the image, maintained in a harmonious but broad palette of warm, golden colours.

# Back panels

## Simple alternative for complicated solutions

- much easier to clean and install than ceramic
- much cheaper and lighter than natural stone
- as effective as wood, but without the need or impregnation

## Advantages of back panels

- resistant to high temperatures, humidity and most household chemicals
- easy to keep clean
- no need of impregnation – ready for use immediately after installation
- designed for self-assembly-fastened to the wall with the use of a contact adhesive
- easy to process
- thanks to the variety of patterns and structures they perfectly imitate various materials such as wood, stone, concrete or aluminum
- complementary with a collection of kitchen worktops

## Back panels Stock collection

There are 12 decors available in the stock collection. The following pairs of decors form the obverse and reverse of the six back panels:

1. Lancelot Oak **R20027 RT** / Oiled Oak **R20348 NY**
2. Metallic Brown **F76054 BR** / Bianco Marble **S63051 MS**
3. Sonoma Oak **R20128 RT** / Scirocco **S60025 FG**
4. Nubian White **S62021 TC** / Thermo Oak **R20373 NY**
5. Roma Marble **S63014 FG** / Artisan Oak **R20315 NY**
6. Kashmir White **S63022 BR** / Bellato Grey **F76044 SD**

Decors from outside the stock collection are available only on request. For quantities from 2 pieces the buyer will receive a back panel with the selected decor on the right side and the factory selection on the left.

## Technical information
